3. Depiction and design

The transmitted texts are considered by the Operator to be a paper original, which is published as delivered and not specially proofread by the Operator, with the content being published as submitted.

For the purposes of comparability of information and rational work processes, all publications are published solely in the fonts and designs customary and uniform at the Bundesanzeiger for the individual areas and sections on the Internet. Proof copies are not sent.

There is no obligation to return or retain transmitted data, data storage media, or documents that are not intended for publication or do not conform to the submission formats. Publication orders whose content violates statutes, official regulations, or standards of public decency are not processed.

4. Publication fees / (electronic) invoicing

Disclosures in the Bundesanzeiger are fee-bearing. Details can be found in the relevant valid price list on the website '<https://www.bundesanzeiger.de>'. Invoices are generally sent electronically to the e-mail address given in the order, unless a hard copy invoice is requested.

5. Corrections by the Operator

If, despite all care, errors are made in the electronic announcement, these are corrected upon request through a corrective text prepared by the Operator. There is no claim to complete repetition of a publication or to a price abatement.

For time-sensitive publications, data transmission must be concluded not later than 2:00 p.m. on the day of transmission, in order to be able to publish them on the second-following publication day of the Bundesanzeiger. This period may be abbreviated only in very limited cases of exception and after prior coordination with the Operator. Other transmission deadlines apply to very sizeable electronic documents (e.g. MS Word over 25 pages). These are to be coordinated with the Operator on a case-by-case basis.

8. Liability

The Operator assumes no liability for the defective transmission of publication texts. The Operator is not liable in the event that transmission of publication documents does not meet deadline or form requirements. In all other respects, the Operator's liability is limited to wilful misconduct or gross negligence, unless the matter involves a breach of duties whose fulfilment is necessary to facilitate proper performance of the contract and on whose adherence the other party is normally entitled to rely (cardinal duties). Liability is limited to compensation for typically foreseeable damage. The aforementioned limitation of liability applies mutatis mutandis to the Operator's statutory representatives, employees, and other persons used to perform an obligation (Erfüllungs- und/oder Verrichtungsgehilfen).

9. Controlling language version

Insofar as general terms and conditions and information on the publisher's websites are made available in a variety of languages, the German version is in each case solely applicable, particularly with respect to the interpretation of the wording used. Other language versions (translations) are to be understood as a mere service of the publisher.

10. German law / Publisher / Place of Fulfillment / Jurisdiction

Only the German law applies.

The "Bundesanzeiger" is a publication of the Federal Ministry of Justice, headquartered in Berlin.

In the event that the contractual partner of the publishing house is a business person, a legal entity under public law or special fund under public law, the place of fulfillment and jurisdiction shall be Berlin for both parties.
